Nuestra colección 2013 está compuesta por molduras de modelos sencillos y elegantes, cuyo principal valor es la calidad de las materias primas, las nuevas aplicaciones y las técnicas decorativas utilizadas.

Las texturas de los perfiles que componen la colección, van desde el rústico actualizado al liso vanguardista y perfiles con pequeños relieves.

El colorido de las molduras está compuesto principalmente por el binomio blanco/negro (clásicos actualizados en las tendencias de moda), colores fríos como el plata - acero y la nueva gama de colores tierra.

Todo ello pensado para conseguir un efecto innovador y distinguido, creando una simbiosis con las tendencias minimalistas en decoración.

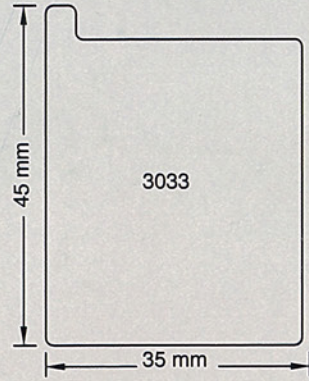

Our collection 2013 is composed by the moldings of the simply and elegant models, whose principal value is the quality of the raw materials, the new applications and the decoration techniques used.

The textures of the profiles that make up the collection, start from the actualized rustic to plain avant-garde and the profiles with the small reliefs.

The colorful design of the moldings consists basically in the binomial black/white (actualized classics in the fashion trends), cold colors like silver-steel and the new range of ground colors.

All that was thought to reach the innovative and distinguished effect, creating a symbiosis with the minimalist trends in decoration.

We ran through the program
this forenoon and worked
on conflicts this P.M. Pupils
did not report at noon:
was German 9, 10, 11 and
Geometry 108. so far but
subject to change
at did not
rain here
until quite
ate Sunday
and then very little
cut promise to come
town Friday
night as yet.
went to see Jesse H
last night and
never gave me
her photo post
she is quite
in case. Have not seen any
other former Scribnerite
thus far. I feel like having
a "big" time to night - ethey
parts, one too but here as
